Davina's Top 10 Smoothie Recipes

~Davina Hearne~

Hi,

Thanks for subscribing to get my 10 Favourite Smoothie Recipes.

You're now also part of the Nutrition Revival where I'll keep you up-to-date with what's happening through my weekly emails.

Below are the smoothie recipes that I promised you. Try them out and enjoy matching them to your daily needs.

For all the smoothies, you can vary the consistency by the amount of liquid you add. If you want it runny, add more milk, water or juice. If you want it thick, add less of these.

For best results, use organic foods where possible. It's best to plan your smoothies ahead of time and soak any nuts or grains overnight to ensure you get the maximum nutritional benefit from them.

If some of the ingredients I mention are new to you and you are not sure where to find them, my suggestion is to try your local health food/organic store and remember you can also get superfoods from the shop on my website.

Make sure you leave feedback and your own suggestions on the website (www.nutritionrevival.co.nz).

I'm always excited to try new ideas!
